

ASSEMBLY BILL

No. 825

Introduced by Assembly Member Levine

February 18, 2005

An act relating to air pollution.

LEGISLATIVE COUNSEL'S DIGEST

AB 825, as introduced, Levine. Air resources: binational committee.

Existing law imposes various limitations on emissions of air contaminants for the control of air pollution from vehicular and nonvehicular sources. Existing law generally designates the State Air Resources Board as the state agency with the primary responsibility for the control of vehicular air pollution.

This bill would require the state board, in conjunction with the Legislature, to work towards creating a binational committee with Mexico to work on issues relating to air quality, including, but not limited to, the collection and interpretation of data pertinent to air quality and the effects of air quality on human health.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. The State Air Resources Board, in conjunction
- 2 with the Legislature, shall work towards creating a binational
- 3 committee with Mexico to work on issues relating to air quality,
- 4 including, but not limited to, the collection and interpretation of
- 5 data pertinent to air quality and the effects of air quality on
- 6 human health.
